Subject: Please Deny EnergySolutions' Import Application submission

Insert personal comments here : Dear Office of the Secretary,

I'm writing to urge the Nuclear Regulatory Commission to deny EnergySolutions' request to import 20,000 tons of Italian nuclear waste into the U.S. It is my understanding that this single request is many times larger than previous import licenses granted by the Commission and would therefore represent a serious departure in this country's policies for handling nuclear waste.

Apparently the State of Utah does not have the regulatory ability to say NO to these extremely hazardous wastes. The State does not currently have any nuclear power plants and has opposed temporary storage of the waste generated by such plants in other states.
