

Shearon Harris Nuclear Power Plant Units 2 and 3

COL Application

Part 5

Emergency Plan

Revision 0

**Shearon Harris Nuclear Power Plant Units 1, 2, and 3
COL Application
Part 5, Emergency Plan**

Explanatory notes regarding the Emergency Plan and Supplemental Information

The Shearon Harris Nuclear Power Plant Combined License Emergency Plan consists of a full and integrated plan, six appendices, and two annexes. The plan is written in accordance with NUREG-0654 and provides detailed information regarding each of the sixteen Planning Standards and associated Evaluation Criteria. The six appendices that follow provide additional detailed information on various aspects of the Emergency Plan. The two annexes allow for unit specific information, specifically, Annex 1 applies to the existing Unit 1 at Shearon Harris, and Annex 2 applies to the new Units 2 and 3. Supplemental information includes the detailed evacuation time estimate report, an implementation schedule for the integration of the existing plan and the combined license plan, a regulatory compliance cross-reference, an impact evaluation performed under 50.54.q, an emergency action level basis document for the new units, and state and local emergency planning documents. These state and local emergency planning documents include current versions of state and local plans. The following table delineates documents included as the Emergency Plan and those documents found in Supplemental Information. Emergency Planning Inspections, Test, Analyses, and Acceptance Criteria (ITAAC) are included in Part 10 of the COLA.

Emergency Plan	
Integrated Plan	Shearon Harris Nuclear Power Plant Combined License Application Emergency Plan
