Hello,

The letter provides another thought.

If anybody can explain the nuclear safety value of placing "E N Inv Co. LLC" in the chain of command above Indian Point 2 and below the Entergy Corporation, I would like to hear it. (Incorrectly, I called it Entergy Inv Co LLC in the letter.)

Or, if anybody can explain the improvement in plant material condition that results from placing "E N Inv Co. LLC" in the chain of command, I would also like to hear it.

Thank you,

Tom Gurdziel
