DOCKET NO. 11005711

Feb 21, 2008

DOCKETED
USNRC

February 28, 2008 (4:30pm)

Secretary, US Nuclear Regulations Comm.
Washington DC 20555-0001

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

ATTENRION: Rulemaking and Adjudication Staff

We do not want Utah to become the sumping ground for the world's nuclear waste!

Put a stop to the poisoning of Utahans by not allowing any other country to use us as the garbage heap for the nuclear waste that they have created!

That "stuff" has no place in Utah or any other place in the US. It's a real tragedy that Utah is already being used by 36 states to rid them of their garbage that is too HOT for them to keep in their own state where it was created. Do not let us become the dumpignounds for the world!

Put a stop to it now!!

Mr and Mrs James W Yoder
