As residents of East Tennessee and downwinders from Oak Ridge, we write to oppose the application of EnergySolutions, which operates facilities in this state, to import nuclear waste from outside the U.S. This company is planning to profit from a loophole in Tennessee law that has been interpreted to allow so called "processed materials" to be released into the environment that other states would not release. As a nation we have our own challenges in disposing of nuclear waste generated in this country, and it is incumbent upon us to insist that other countries take responsibility for the disposal of their own nuclear waste and not attempt to utilize the United States as a dumping ground. Thank you. Richard & Lucy Henighan, 619 Mt. View Dr., Seymour ,TN 37865.
