Kevin M. Struna
Radiation Safety Officer
Albany International Corporation.
300 Albany Street
St. Stephen, SC 29479

Dear Mr. Struna:

Enclosed is Amendment No. 11 to your NRC Material License No. 39-32289-01, in accordance with your request. Please note that the changes made to your license are printed in bold font.

This amendment authorizes you to release for unrestricted use, your former facility authorized for storage of licensed material, located at 618 S. Blitzen Lane, Santa Claus, Indiana, based on the information you provided, demonstrating that it meets NRC release criteria for unrestricted use.

Please review the enclosed document carefully. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>. A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

Loren J. Hueter
