Kathy,

This e-mail confirms that Pilgrim has NOT used the subject license provisions for decon or repair of contaminated reactor components since 1980's.

Even though, you indicated that we can terminate the subject material license, Pilgrim has concluded to retain the license in the event decon or repair reactor components in the future would be required.

Based upon the above information, should you wish to visit Pilgrim for an inspection, please let me know. I can be reached at 508 830 7940

Thank you for your time.
