I would like to voice my opposition to License Applications Nos. IW023 and XW013 (Federal Register Volume 73, Number 28, 2/11/08), allowing nuclear wastes to come into this country to be disposed of from Italy or anywhere.

It seems to me we have enough of own to deal with and your efforts would be better placed there. As far as I know, we are a 1st world country. These wastes need to be taken care of by the countries and corporations who created them. To import this waste for money is putting America on a par with a 3rd world country. As an educated and wealthy country, let us stand for regulating nuclear waste by not creating any more.
