**Cc:** duncants@roanestate.edu  
**Subject:** Docket 110057

I would like to provide commentary in support of EnergySolutions, Inc. I am the program director for the Environmental Health Technology program at Roane State Community College in Harriman and Oak Ridge, Tennessee. I have had an opportunity to interact with the staff at the Oak Ridge facilities operated by EnergySolutions and their predecessors for almost 20 years. In that time I have toured their facilities several times, both as a citizen taking advantage of open houses and on occasions when the facility allowed my students to take field trips of the facilities. I have taught Environmental Science courses on-site, and their site personnel have taught on-site courses in safety and emergency response, health physics, waste management and industrial hygiene. Several of my graduates have become long term employees at the facilities, and I have one student now who is a full-time employee of EnergySolutions attending class on a company stipend to improve her job skills.

I have had nothing but positive relations with the company. I have always found them to be competent and conscientious professionals in the conduct of their jobs. I have over 30 years of experience as in public health, hazardous waste management, education and consulting. My family and I live in Roane County, and I have a very real interest in seeing our local environment protected. I have every confidence that EnergySolutions is up to the task of managing radiological wastes safely and properly.

Sincerely,

Dan C. Hyder  
Director, Environmental Health Technology  
Roane State Community College  
(865) 354-3000, ext. 4273  
276 Patton Lane  
Harriman, TN 37748
