License applications #IW023 and #XW013

It is urgent that you say no to these applications for importation and disposal of nuclear waste.

A safe way to dispose of these wastes has not been found or else these wastes could be disposed of on or near the site of generation. We should not endanger the health and welfare of our country to accomodate disposal of these toxic wastes. Until a safe way can be found for disposal there should be a halt to all nuclear generation.

Sincerely,
Jo Dodson-Boyte
