Re: Nuclear Waste disposal

ATTN: Rulemaking and Adjudication Staff

Please do not try to dump anymore Nuclear waste in our beautiful state. We, the citizens of Utah, are sick and tired of being the whipping boy for the Nation and now the world as regards Nuclear testing, storage and dumping of radio-active material.

Let those who create the waste dispose of it in their own state or Country!

We are a fiercely patriotic people in Utah but we feel we have done more than our share to help the government and the Nuclear (Atomic) program of this country. Energy Solutions came into our state against the wishes of many, many of us! They are established here now but I strongly feel that to allow them to import any more Waste is totally wrong.

ENOUGH ALREADY....NO MORE DUMPING OF WASTE IN OUR STATE!!!!
