This message is in regards to Rulemaking and Adjudications, Energy Solutions Import License Application **IWO23**.

The citizens of Tennessee do not need or want nuclear waste from Italy or any other foreign country or other states to be brought to Oak Ridge for processing. Low levels of radioactivity have already been detected in our local landfill, some of which is related to dumping of radioactive waste there. This unsafe practice is not acceptable on any level, and is not defensible either economically, environmentally or morally.
