Subject: Nuclear waste from Foreign countries

As a citizen of the US I am very concerned about the amount of 'Waste' deposited, Released from our own Energy Sources.

Nuclear energy has not only prove to be difficult to contain , but nearly Impossible to 'Recycle'. It reamins in our envirnoment for far to long to ever be considered Recycleable, thus not re newable. this type of energy source is antiquated and deadly.

The idea of taking such 'wste' from any other country amounts toa an assult on OUR environment. This si OUR country not the Corporations Country.

We no longer are interested in gambling with Nuclear energy as a National Energy source for just these reason. therefore any additional materials would be considered agaisnt the will of the people. there is NO benefit to US to particpate in any such dealings- 'Jobs' is a poor excuse whenselling out the welfare of the environemnt we all depend on (and will in the future) . These Corporate Dealings amount to Treason, against the people and literally the State of the Nation-present and Future. Enough with Corproate Profiteering, Reckless Endangerment. If Corps want to fly our flag or benefit from OUR Reputation- they had best start living up to the principles and ideals of this Country. In reality these corps should be called Imperialist Inc. which lack affiliation or Allegience to any Gov't or people.

The sad thing is the deranged person who left Risin in LV will see a far more harsh sentence than any of these Corps who have been poisoning US for Decades! these Corps victims already range in the hundreds of thousnads if not millions!

I want to know (and will be cognizant of) who is supporting such UNAMERICAN enterprise in OUR Public Servant Sector. Enemies of the State!

Sincerely,
K. Bogue
