Subject: nuclear waste

392

We are acting like a third world country. And for a change we are endangering thousands of Americans who have a right to be protected by our regulatory agencies, not harmed. How powerful must the nuclear industry be, and how dangerous for all of us to even think of allowing the acceptance of spent fuel for foreign countries. Your job is not to obey corruption; your job is to follow the laws: protect citizens from the potential of accidents, spills and leaks. As you well know. They do happen.
Thank you, Liane Casten, Evanston, IL
