License Applications Nos. IW023 and XW013

I urge the Nuclear Regulatory Commission to deny these applications by Energy Solutions to import nuclear waste from Italy for processing and storage in the United States. We can't even get our own act together on nuclear waste issues and we certainly have more than enough problems and material from own nuclear programs to deal with. Importing waste from Italy or any other foreign country creates the illusion that the waste is being dealt with. It is just a shell game, out of sight out of mind. Say NO on these license applications.
Sincerely yours,
Bill Chisholm
