Subject: No radioactive material from Italy or any other countries

Nuclear Regulatory Commission

I demand you say NO to License Applications Nos. IW023 and XW013 (Federal Register Volume 73, Number 28, 2/11/08) that propose to import radioactive material from Italy for disposal in the United States.

It is criminal to subject our present citizens and future generations to contamination from radioactive substances. The way to handle nuclear waste is not to generate it in the first place.
