Subject:	No dumping or processing foreign nuclear wastes in the US

We have no safe place to process or store the deadly nuclear wastes being generated in the United States. It is totally unthinkable to accept any amount of nuclear wastes from other nations. Air and water will carry whatever radiation is released (now and/or over time) to other states as well as to the unfortunate citizens of states where the processing might happen.

Say NO to License Applications Nos. IW023 and XW013 (Federal Register Volume 73, Number 28, 2/11/08).
