Subject: Nuclear Wastes from Europe

Shipping nuclear wastes from Europe to the US sounds like it couldn't possibly be true. However, risking lives, health, and environment for the sake of profit is the American way, it seems. To allow this travesty to occur by approving License Applications IW023 and XW013 Federal Registry, Volume 73, Number 28 2/11/08 is nothing short of destroying our children's future for immediate profit. Anyone who allows this astonishingly irresponsible project to move forward should be relieved of their job and imprisoned.

Yours truly,
Barbara Pikus
