**To:** Secy  
**Subject:** License Applications IW023 and XW013

I'm writing to ask you to please say "No" to the License Applications numbered IW023 and XW013 that will allow EnergySolutions to import radioactive waste from other countries into the US and be transported across the country and processed. We have enough of our own wastes to take care of without adding to the air, water and ground pollution.

As a citizen, I don't want some company's pockets to be lined at the expense of the health and wellbeing of people, wildlife and the environment. Pollution is one thing, but radioactive pollution is entirely another since it lasts so long. If we start taking in Italy's radioactive wastes, where will it stop? Please don't let EnergySolutions or any other company start taking radioactive wastes from any other country.

Thank you.  
Ruth Stambaugh
