Mr. Blubaugh,

I have faxed you the NRC form 591-M documenting the NRC site visits in Hot Springs, and Edgemenot, South Dakota on February 13, 2008. Although activity in terms of your radiation protection program was limited, areas reviewed were found to met or exceed the regulatory requirements. Please advise if you have any questions pertaining to the addition of the Edgemont location as a Field Station on your license (amendment).

Regards,

Rick
