Subject: Importation of spent nuclear fuels

To Members of the Commission
Rulemaking and Adjudications;

I am strongly opposed to the importation of spent nuclear fuels into this country from overseas. Given the uncertainties surrounding the safe transport and disposal of our own fuels, this is an unacceptable risk to public health and the quality of our environment. Energy Solutions Import License Application IWO23 should NOT be allowed to go through for the gain of the nuclear industry at the potential cost of even one taxpayers health and safety.
