Subject: Do Not Import Trouble - NO to License Applications Nos. IW023 and XW013 (Federal Register Volume 73, Number 28, 2/11/08)

To Whom It May Concern:

Re: "A million cubic feet, 20,000 tons, and large amounts of radioactivity from the Italian nuclear industry facilities - what appears to be most of Italy's "low" and intermediate level radioactive waste - could be brought around the globe to the US through the ports of Charleston, South Carolina and New Orleans, Louisiana. It would then go to Memphis and Oak Ridge Tennessee for "processing" and the remains transported to Utah for burial".

Do not allow import of "low level" nuclear waste from outside the country. Not only would this be dangerous to everyone in the path of this stuff as it travels, it is radioactive for years and years. What if it is involved in an accident or taken by terrorists to try to create dirty bombs? Just say no to something that should be a no brainer.

Teresa Robinson

(A Missouri tax payer with kids).
