Subject: Please Deny EnergySolutions' Import Application (IW023) submission

Insert personal comments here : Dear Office of the Secretary and Gov. Huntsman,

I'm writing to urge the Nuclear Regulatory Commission to deny EnergySolutions' request to import 20,000 tons of Italian nuclear waste into the U.S.

I am one who sees nuclear power as a viable option for future energy production, but I am strongly opposed to the transportation of nuclear waste to any site not responsible for its production. The rule should be, "If you make it, you store it." This is the only fair and reasonable way to handle nuclear waste. I don't want Utah to become the toilet of the world's nuclear facilities. If and when Utah ever builds a nuclear power plant, that will be the time to store nuclear residue in Utah. Please deny this import request. Thank you.
