Subject: Energy Solutions Rape of Utah

LL
~~** Proprietary **~~

Thank You for the opportunity to voice my opinion about the matter of storing nuclear waste in Utah as proposed by Energy Solutions. I am frustrated that a few business men who feel the need to pad their bank accounts are trying to do so at the expense of future generations.

50 Years from now these business men will have retired and moved onto later phases in their lives, but what about their children, MY CHILDREN, and all generations to come who will forever have to lives their lives around the 'Low Radioactive Material' being 'Stored' in our back yard. Please do not allow these business men to dictate how the face of our future develops. Population growth will naturally stretch development into the currently empty lands we have in our beautiful State, we need to do all we can to protect and preserve it for the generations to follow. Allowing Energy Solutions to invite this waste from other countries will only encourage the flow of additional waste from around the world to find its final resting place here is Utah at the expense of our future residents.
