Subject: Please OPPOSE importing nuclear waste from Italy!

Dear Sir--

It is difficult for me to fathom why your office is considering the importation of radioactive waste from Italy when the topic of safe radioactive storage for the spent radioactive material our own nuclear facilities is such a contentious issue here. The United States should not open the doors to becoming a dumping ground for waste produced elsewhere.

This type of proposal makes me think that the United States is sinking to Third-World status, because it has been traditionally Third World nations that have taken our refuse and dumped products (to our shame).

Please prevent this bad proposal from moving forward.

Thank you.
