**Subject:** Foreign nuclear waste

I agree with my Representative, Bart Gordon, TN, that we - that is, the United States, should not allow nuclear waste from foreign nations to be "dumped" here.

My reasoning is that we continue to be an ever expanding nation and we should not use our land resources to be used for such "storage" as we cannot accurately predict how we might be using these resources in the future.

Looking at my globe, I can see many areas on our planet - far removed from the possibility of habitation, that would provide more practical locations for such storage.

Thank you for your consideration of this appeal.
