Subject: No to importation of nuclear waste from Italy, docket # 11005711.

Dear Nuclear Regulayors:

Please say NO to a major US nuclear waste company, EnergySolutions, with a near monopoly on commercial nuclear waste treatment and disposal in the US, proposal to large scale importation of nuclear waste from Italy for processing and disposal in the US. This import license application is open for public comment until March 12, 2008. On February 28, 2008. over 50 national, state and local groups and individuals requested an extension of 90 days for public comment and requests to intervene and hold hearings.

A million cubic feet, 20,000 tons, and large amounts of radioactivity from the Italian nuclear industry facilities - what appears to be most of Italy's "low" and intermediate level radioactive waste - could be brought around the globe to the US through the ports of Charleston, South Carolina and New Orleans, Louisiana. It would then go to Memphis and Oak Ridge Tennessee for "processing" and the remains transported to Utah for burial.

We already have a serious nuclear waste problem in this country with our own nuclear waste disposal.

Sincerely,

Martha Bushnell, Ph.D., 502 Ord Drive, Boulder, CO 80303-4732.
