Subject: Energy Solutions Proposal

I believe the proposed shipment, processing and long term storage of other country's nuclear waste in the United States is a ludicrous proposal. We have yet to come up with a satisfactory solution for the long term storage of our own spent nuclear fuel. Much of it is already "temporarily" stored in Tennessee awaiting the possible approval of the Yucca mountain storage facility. We do not know if Energy Solutions will be around to manage the storage in the future! Overall this is a proposal that will benefit no one in the US other than Energy Solutions. DO NOT APPROVE THIS ASININE PROPOSAL!
