

UNITED STATES COURT OF APPEALS
FOR THE TENTH CIRCUIT

MARILYN MORRIS, et al.,

Petitioners,

v.

UNITED STATES NUCLEAR
REGULATORY COMMISSION,
et al.,

Respondents.

No. 07-9505

ORDER

Filed November 28, 2007

Based on a review of the briefs filed in this matter, it does not appear that the petitioners have included, as an attachment or addendum to their opening brief, copies of the NRC decisions that are the subject of their petition for review. Although not expressly required by the rules, the court has determined that an addendum to the petitioners' brief, containing copies of the three sets of NRC decisions referenced at pages 3 through 5 of petitioners' opening brief, would be helpful to the court, particularly given the length of the record in this matter and the number of NRC decisions involved. In addition, such an addendum would be consistent with the purpose of the court rules governing the content and form of

the parties' briefs. *See* 10th Cir. R. 20.1 and 10th Cir. R. 28.2.

Therefore, within 14 days of the date of this order, petitioners shall file with this court an original, plus seven copies, of an addendum to their opening brief, containing copies of the three sets of NRC decisions that are the subject of their petition for review. The addendum shall be clearly indexed and paginated so that each NRC decision contained in the addendum can be readily located. Requests for extensions of time to file the addendum are not encouraged.
