Subject: Application No. IW023

Dear Sir:

Energy Solutions' application to import 20000 tons of radioactive waste, mostly from Italy, for disposal in the United States should definitely be disapproved for the very simple reason that it is a very stupid idea, except for the company that will profit by doing so.

Nuclear power is counter-productive and the NRC should not encourage it by opening up our country as a global radioactive waste dump.

The out-going waste stream will be larger than the incoming 20000 tons, and Energy Solutions can not demonstrate any non-polluting method for dealing with the waste.

Bad idea...NO.

Regards,

Charles W. Morgan
