I insist that the NRC say NO to:

License Applications Nos. IW023 and XW013 (Federal Register Volume 73, Number 28, 2/11/08)

We have enough problems with the nuclear waste we generate in our own country; we definitely don't need to be taking any nuclear waste from any other country.

It is dangerous enough transporting this stuff around our country, why increase the incidents of accidental spillage by sending it thousands of miles across oceans, then into our ports, then along our rail system, and on our roads. Nuclear waste no matter how "low-level" you call it...is lethal for centuries, if not milleniums.

Stop this insane idea and nip it in the bud now.

your for a livable future
