Subject: Energy Solutions, Inc. bid to import nuclear waste from Italy to Utah.

Secretary U.S. Nuclear Regulatory Commissions:

Attn: Rulemaking and Adjudication Staff,

As concerned citizens of Utah, we're adamantly opposed to importation of nuclear waste at any level into Utah. This sets a bad precedent to become the nuclear dump site of the world.

We strongly believe countries that produce nuclear waste should be responsible for disposing of it in their own country. Utah has sacrificed for past nuclear programs from the government, with many documented cancers resulting from the fall-out from previous open air and under ground testing from Nevada. Please do not subject the citizens of Utah to anymore exposure to nuclear radiation.

Sincerely,

Warren and Gretha Eyre
