Subject: NO to License Applications Nos. IW023 and XW013 (Federal Register Volume 73, Number 28, 2/11/08)

I am writing to absolutely oppose the license application for Energy Solutions to import nuclear power waste from Europe to burn, melt, transport and dump in US.

I understand that EnergySolutions runs 2 commercial nuclear waste dumps in the US (in South Carolina and Utah) and incinerators, a metal melter and other "processing" facilities in Memphis and Oak Ridge , Tennessee . EnergySolutions is applying for a federal license to import 20,000 tons, one million cubic feet and over 600,000,000,000,000 becquerels (radioactive emissions per second) of radioactive waste (mainly from Italian nuclear power and related industries) into the US for processing including incineration, "recycling" (into unspecified waste streams and destinations), transport and disposal.

The "Low" and Intermediate Level Nuclear Waste from ITALY would

~Enter the US via Ports of Charleston and New Orleans (possibly others)

~Travel to and throughout Tennessee --

~Be Burned, Smelted, Chopped, and otherwise "Processed," in Memphis and Oak Ridge giving off routine radioactive emissions and creating more waste.

Some could be "cleared" and Dumped in Solid Waste Dumps in TN or "Released" and "Recycled" for use as if not radioactive.

Some would be transported to Utah to be buried.

Please do not allow this to happen for the sake of ourselves, our children and our grandchildren's grandchildren.

Sincerely,

Alice Bartholomew
