NAME OF PERSON(S) CONTACTED OR IN CONTACT ORGANIZATION (OFFICE, DEPT. ETC.) TELEPHONE NO.
Kim Wilson, Engineer Clarkson Construction Company 816-423-8200
2133 Gardner Avenue
Kansas City, Missouri 64120

subject
Control No. 316542: Re request by letter dated 9-14-07 to renew License No. 24-32024-01.

SUMMARY
In our telephone conversation, the following items were discussed:

I related that the letter dated 9-14-07, signed by him, requesting that the subject license be renewed without change, based on no changes to their program since issuance of their current license, was not sufficient because of changes made to the licensing guidance documents (NUREG-1556, Vol. 1, Rev. 1) and the current requirement that possession limits be placed on the license for each radionuclide authorized on the license. I also related that the application should be signed by a high level management representative (name and title), or alternatively, if the RSO is to sign for the license amendments (including license renewals) that a document be included with the response, signed by a high level management representative, authorizing the RSO to sign documents for the licensee, relating to the NRC licensed program.

Mr. Wilson related that Kim Pardoe, the current RSO, has suffered a medical condition and possibly may not be able to return to work and therefore they need to replace him as RSO by another of their employees most closely involved in this licensed program, Mr. Armando Lamas, and that he would have Mr. Lamas contact me to work with in providing us the needed additional information for renewal of the license and replacement of the RSO.

ACTION REQUIRED
License reviewer to work with Mr. Armando Lamas (816-808-8389) in providing additional information needed for renewal of subject license.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this conversation record will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
