Armando Lamas, RSO Designate	Clarkson Construction Company 2133 Gardner Avenue Kansas City, Missouri 64120	816-808-8389 FAX 816-241-6823

subject
Control No. 316542: Re request by letter dated 9-14-07 to renew License No. 24-32024-01.

SUMMARY

In our telephone conversation, the following items were discussed:

1. I noted that NUREG-1556, Vol. 1, Rev. 1, "Program Specific Guidance About Portable Gauge Licenses", dated November 2001, is the current guidance document we use in evaluating license applications for applicable information and acceptable commitments needed to renew a license. In the interest of minimizing the efforts of all involved in the license renewal process, it was discussed and agreed that you resubmit your license renewal application using Appendix A (NRC Form 313) and the check list format as presented in Appendix B (Suggested Format for Providing Information Requested in Items 5 through 11) of NUREG-1556, Vol. 1, Rev. 1, dated November 2001. Also, please note that each make and model of gauge requested should be specified in the application.
2. Also, in accord with our current security related criteria, requiring that possession limits to be placed on a license for each radionuclide possessed, please indicate the possession limit you are requesting for both Cs-137 and Am-241.
3. I also requested that the application and cover letter (with company letterhead) be signed by a high level management representative (name and title), or alternatively, that a document (such as the cover letter) signed by a high level management representative, be included with the response, authorizing you, as the replacement RSO, to sign documents for the licensee, relating to the NRC licensed program.

ACTION REQUIRED

Please **provide, as additional information to Control No. 316542**, responses to the items requested above. Please **send responses to me by facsimile (630-515-1078)**. **No followup hard copy is needed.** Please **call me at 630-829-9829** with any questions **and as soon as you have sent response**. Please respond by March 7, 2008.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this conversation record will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).
