Subject: mail control #471646

Rachael,

Please consider this as an amendment to our application (mail control #471646). In response item 10.8 it was stated that leak tests would be conducted at intervals not to exceed 6 months. After our conversion over the phone I would like change that state that leak tests will be conducted at intervals not to exceed 12 months, in accordance with the sealed source device registry and the supplier's instructions.

In addition I would like to submit the following information on previous licenses that I have worked under.

Northern Geotechnical Engineering Terra Firma Testing
ph 907 344-5934

R & M Consultants
ph 907 522-1707

Dowl Engineers and Alaska Test Lab
ph 907 562-2000

Mail Envelope Properties (47B9CA88.A63 : 14 : 43619)
