comments: I'm writing to express my opinion on the newly proposed idea of Europe wishing to bring in their nuclear deposits into the United states and into the state of Utah. I'm writing to say I highly favor the idea and proposal to do so as long as these wastes and depositis can be used for fueling a good nuclear power station in the United States and in the State of Utah and only if such Nuclear Power Stations exist. I'm not really excited about these nuclear depositis and wastes sitting in the grounds in storage in the United States and in the State of Utah for years even though I do understand the program is very safe.
