Mike:

One minor change for address for Charles Miller. The Mailstop is T8D22. However, if you have already mailed it, it will still get to him w/o delay, no need to send another. If you make the change before you mail, send me an updated .pdf version I can forward to the managers.

Ron

Re: Uranerz Energy Corporation Collins Draw ISR Project Letter of Intent to Submit a Source Material License Application

Dear Mr. Miller:

Uranerz Energy Corporation is providing the Nuclear Regulatory Commission (NRC) with its intent to submit a Source Material License Application for the Collins Draw ISR Project in the third quarter of 2009. The Collins Draw ISR Project will produce uranium by the in situ recovery method and be located in the Pumpkin Buttes Mining District of the Powder River Basin, Wyoming. The project will consist of a satellite operation that will include wellfields with associated header houses, an ion exchange circuit, deep disposal well facilities, associated process and maintenance buildings, and materials storage. The permit boundary for the Collins Draw ISR Project will cover the following areas: Township 42N, Range 76W Sections 1, 2, 11, and 12, and Township 43N, Range 76W Sections 25, 26, 35, and 36. The Collins Draw permit area is approximately 5 miles from Uranerz Energy Corporations Nichols Ranch ISR Project. The uranium produced at Collins Draw will be shipped to the Nichols Ranch facility for processing to yellowcake.

If you should have any question, please contact me at 307-265-8900 or by email at: [mthomas@uranerz.com](mailto:mthomas@uranerz.com).

Sincerely,

A handwritten signature in black ink, appearing to read "Michael P. Thomas".
