Dear Mr. Lesar,

Template = SECY-067

1

SECY-02

Please accept this memo from the Washington State, Office of Radiation, concerning clarifications for Washington's April 27, 2007, Rulemaking Petition for GPS Tracking of vehicles transporting certain radioactive materials. Feedback from a Rockville meeting attendee and our review of all three public meeting transcripts brought this misunderstanding to our attention. We want to again state our intent is on tracking VEHICLES rather than individual devices or sources.
