## SUBJECT

Control No. 316783 – Regarding amendment request by Provident Hospital, for NRC License No. 21-02802-03, to delete three authorized users, Michael M. Kaplan, M.D., Mohan Chelladuria, Ph.D., and Thomas Kasa, M.S.

## SUMMARY

In telephone conversation with Mr. Carey on this date, I related a problem in deleting Dr. Chelladuria from the license in that he was the only authorized user, named on the license for License items 6.G. through 6.M., involving millicurie quantities of several radionuclides in any chemical and/or physical form, including long lived Carbon-14 and Hydrogen-3, for use in laboratory research, including animal studies. Mr. Carey related that it was his understanding that the laboratory research program involving radioactive materials in License Items 6.G. through 6.M. was never initiated and therefore no referenced materials were received and hence no decommissioning of facilities required before deleting subject radionuclides from the license. I requested and he committed to provide by facsimile a written statement, signed by licensee management, confirming the above information.

## ACTION REQUIRED

Licensee to provide response in writing, as requested above, as additional information to Control No. 316783.
