March 14, 2008

RE: License # 34-30614-01

Patty,

These two items were omitted from the amendment previously sent to you. One is a change to the amendment and the other is an addition.

1. The Authorized User, under item 4 of the amendment request sent on the 12th, for The Hope Cancer Center, Premier Diagnostic Imaging, License #13-32556-01, will be Dr. Srinivasarao Malyala MD. The listed physician, Dr. Jayaprakasarao Konijeti MD, is out of the country with no knowledge of when he will return. Please make this substitution for The Hope Cancer Center, Terre Haute, Indiana.
2. Please add authorization for the following materials:

Sr-Rb generator to include the following nuclides--
Strontium-85 Maximum Possession Limit of 1500 mCi/mobile unit.
Rubidium-82 Maximum Possession Limit of 500 mCi/mobile unit.
Strontium-82 Maximum Possession Limit of 500 mCi/mobile unit.

Specific training would be provided to all involved workers by the manufacturer prior to the use of the Sr-Rb generators.

Thank you for including these with our original amendment.

Sincerely,

James S. Fisher BS, CNMT
Radiation Safety Officer
