Subject: Alpha Corporation's use of 3440 Troxler Nuclear Density/Moisture Gauges

p-2
45-25224-01
03032985

Ms. Johansen:

Per your request during our phone conversation, I am providing the addresses of two 3440 Troxler gauges for which Alpha Corporation is controlling the storage of at temporary construction sites. These gauges are used to confirm compaction and moisture density results at the respective construction sites.

As noted in our conversation, we also manage the use of seven other 3440 Troxler gauges on various VDOT projects where the gauges are signed in and out on a daily usage basis but are stored by VDOT.

Please find the address for the two rental gauges and their respective serial numbers below.

Serial No. 37186
NIT, VPA
7737 Hampton Blvd.
Norfolk, Va. 23505

Serial No. 36588
164 Rail Project
4820 Bridge Road
Suffolk, Va. 23435

Please contact me if you have any other questions.

Sincerely,
Alpha Corporation
Don Smith
