OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

March 11, 2008

Secretary, U.S. Nuclear Reg. Comm.
Attn: Rule Making & Adjudication Staff
Washington, D.C. 20555-0001

This is to inform you that I am absolutely against Energy Solutions or any other nuclear waste company being allowed to bring waste into the United States. If other countries use nuclear power, they should provide the means to dispose of the waste in their own countries.

This is such a clear cut issue, I cannot imagine the leaders of our country would even consider letting the United States become a dumping ground.

Sincerely,

Glenda Schow
