Subject: EnergySolutions' license application to import Italian waste.

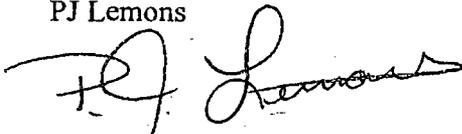

As a 17 year employee of EnergySolutions at our Bear Creek facility in Oak Ridge, Tennessee, I am writing in strong support of the import license application. Foreign materials have been safely processed at our facility for at least the last 12 years. In fact, we are currently processing material from Canada that is very similar to the material we would process from Italy.

EnergySolutions' record of the safe handling of waste materials, meeting applicable license requirement, regulation, and state and federal law demonstrates its absolute commitment to environmental safety. The Bear Creek facility has received the National Safety Council's Perfect Record Award and is in the process of obtaining the Tennessee OSHA Voluntary Protection Programs Star status. I have no doubt in my mind that if the Commission grants the license application, EnergySolutions will continue meeting its high safety standards.

I strongly urge the Commission to approve the license request.

Sincerely,

PJ Lemons
