OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

RE: Storage of imported nuclear waste.

Secretary and Staff Members;

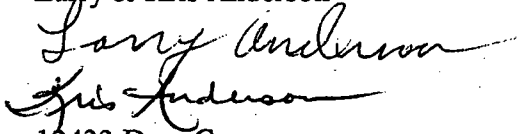

We are strongly opposed to the storage of imported nuclear waste at the Energy Solutions, Clive facility in Tooele County, Utah.

If any country is going to engage in nuclear activity, they need to be prepared to take care of their own waste and not seek a cheap solution at someone else's expense.

The people of the state of Utah have suffered enough with wrongly regulated nuclear activity. There are many people in this state who still deal with the problems stemming from down wind effects of the nuclear testing in Nevada and unsafe practices in the uranium mining industry. Many still mourn the loss of loved ones to nuclear induced cancers and other diseases.

Please keep imported nuclear waste out of Utah and out of this Country.
