comments: I am very much against granting a license to EnergySolutions, Inc. for the importing of low-level radioactive waste from Italy to Utah. This sets a dangerous precedent of disposing European waste in the United States. Radioactive waste that is generated in Europe should stay in Europe. As a citizen of the United States of America; I feel very strongly about the State of Utah not becoming the world's radioactive waste dump. Thank you for your service.

Sincerely,  
Frank C. Baker
