Subject: EnergySolutions Import License Application IW023

I strongly oppose EnergySolutions plan to import nuclear waste from other countries for processing and ultimate storage in the U.S. The United States has enough problems disposing of the nuclear waste generated in this country. We should not set ourselves up to become the world's nuclear dumping ground. I live in Tennessee, the state where EnergySolutions proposes to process the nuclear waste before transporting it to Utah for disposal. This waste would no doubt be transported on I-40 which runs through my community. Please reject EnergySolutions import license application IW023.

Kind regards,
Karen Vena
