SUBJECT: Transmittal of Vicinity Property Completion Reports for the Moab UMTRA Project

Dear Mr. Fliegel:

Enclosed for your review and approval are the following reports for the Moab UMTRA Project:

- Completion Report and Supplemental Standard Application for Moab Vicinity Property, VP018
- Completion Report and Supplemental Standard Application for Moab Vicinity Property, VP019

Appendix A of each completion report contains the information on supplemental standards. Because supplemental standards are an exception to meeting the prescribed standards in 40 CFR 192, the NRC must approve the application before the property can be certified by DOE to meet the Environmental Protection Agency standards.

Please respond to this letter indicating NRC's approval of the supplemental standards application. Should you have any questions, call me at 970-257-2115 or Jeff Parkin of my staff at 435-719-2890.

Sincerely,

A handwritten signature in black ink, appearing to read "Donald R. Metzler", is written over a white background.

Donald R. Metzler
Moab Federal Project Director
