| 7. Are you satisfied overall with the NRC staff who participated in the meeting? | <input checked="" type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

COMMENTS OR SUGGESTIONS:

Thank you for answering these questions.

STP has safely generated/operated nuclear reactors for 20+ years without incident. There has been no adverse environmental impact during this time. Originally the site was designed for two additional reactors. Given the original design, past record it seems that the license should be granted.

Furthermore, we need alternative sources for power, STP has been a stellar member of the community and they will provide an economic boon for the community. Continue Comments on the reverse.

OPTIONAL
