General.

A routine unannounced inspection was made of this facility. Mr. M. A. Perella, Safety Director was contacted. He reported that they had no material on hand and had none since three days after the previous inspection of 5/13-14/71. The record showed that on 5/17/71 the last of the scrap material was shipped. A total of ~ 2,500 ~~kg~~ of U^{235} . The ~~same~~ shipping shipment is also reflected in their sum inventory balance.

Prior to leaving a meeting was held with Mr. R. Robie, Comptroller, for Nuclear Metals. Mr. Robie was apprised of the new policy and change in regulations regarding fines. Also, ~~the~~ the inspector discussed the change in policy regarding correspondence as outlined in a memo of R. D. Low Director, Div. of Compliance to Regional Directors dated 6/2/71.
